EDUCATION

- **MIPT** — Moscow, Russia
  Bachelor of Applied Mathematics and Computer Science — *Sep. 2019 – Aug. 2024*
  - **Relevant coursework**: Algorithms and Data Structures, Programming in C++, Python, Calculus, Algebra, Combinatorics, Probability Theory and Statistics.

TEACHING EXPERIENCE

- **Moscow Institute of Physics and Technology** — Moscow, Russia
  Lecturer in MIPT Math Olympiad School — *Jun. 2021 – Present*
  Algebra | Number Theory | Geometry | Combinatorics
  - Developed and gave a series of lectures and practice classes during MIPT Math Olympiad School for 40+ students.

PROJECTS

- **TODO List** — Moscow, Russia
  Go | PostgreSQL

  It is a simple task management application that allows users to create, view, update, and delete tasks in their daily to-do lists. . It provides users with features such as task creation, viewing, updating, and deletion.

- **Read-Adviser-Bot** — Moscow, Russia
  Go | PostgreSQL

  It is a Telegram bot that provides reading recommendations by periodically sending users links to interesting content. Users can submit links to articles, blogs, or other sources, and the bot will periodically send them new links for reading. It offers personalized recommendations, convenient access to content within the Telegram app, and subscription management capabilities.

COMPETITIVE ACHIEVEMENTS

- Junior Balkan Mathematical Olympiad 2016 gold medal
- Asian Pacific Mathematical Olympiad 2016 bronze medal
- International Mathematical Olympiad 2017 honorable mention
- International Mathematical Olympiad 2018 honorable mention

PROGRAMMING SKILLS

- **Languages:** Go, Python, C/C++
- **Technologies:** Git, PostgreSQL, Docker, Kubernetes, REST, Redis, MongoDB
